## Brazil

### Region

Cerrado, Minas Gerais

### Producer

Fazenda Nossa Senhora de Fatima

### Altitude

On average 950 masl.

### Variety

Acaia, Catucaí, Mundo Novo,  
Bourbon, Icatu

### Harvest Period

Aug - Sep

### Classification

NY 3/4, Screen 14/18

### Processing

Natural

## BRAZIL NATURAL CERRADO FAZENDA NOSSA SENHORA DE FATIMA ORGANIC

Brazil is well-known for its geographical vastness. In central Brazil, the extensive Cerrado savannah is interrupted by seemingly endless plateaus called Chapadas. They cover the states Goiás, Mato Grosso do Sul, Mato Grosso, Tocantins and Minas Gerais, turning them into one of the largest coffee production areas in the world. In the west of Minas Gerais, farmers have started to concentrate on cultivating mainly specialty coffees, forming the associated region of Cerrado Mineiro. Well-defined seasons with hot, wet summers and pleasantly cool, dry winters favor coffee cultivation in this region.

Fazenda Nossa Senhora de Fatima is located near the town of Perdizes, Minas Gerais. It covers a total size of 395 ha of which 235 ha are used for coffee trees. Ricardo de Aguiar Resende, owner of the farm in the third generation, is dedicated to the farm's production, commercialization and social projects together with his wife Gisele. Nossa Senhora de Fatima was named after the place of pilgrimage Fatima in Portugal, where Ricardo's mother was born and where the Blessed Virgin Mary is said to have descended three times.

The whole production on the farm is 100% organic. The natural fertilizers are "homemade" by Ricardo's own fertilizer plant. They are composed of the manure of the own livestock and plant composts. To combat bugs and coffee plant plagues, Ricardo uses pharmaceutical plants like the Neem and Embo trees from India. Environmental preservation and care for the indigenous flora and fauna are a top priority at the farm. Therefore, the reforestation of native trees is underway, adding to the farm's portion of shade-grown coffee, which is not common in Brazil.

**Nutty** • Slightly sweet • **Citric** • Light body
